

TERMOPAK Automatic Shrinkwrap Machinery

The Cheops TERMOPAK range are high quality, robustly constructed Czech built shrinkwrap machines for the beverage, brewing food and chemical industries. Developed and refined over many years of in plant production experience, TERMOPAK machines deliver reliable performance.

The machine can automatically handle glass, PET cans and a wide range of primary packs in pack collations from 2x2 to 6x4 formats, trayless or with lower corrugated pad insert (financial savings over trays)

The machine range is also available in mild steel and stainless steel options with IP55 or IP65 electrical specification
